# INCIDENT ACTION PLAN

## LNU LIGHTNING COMPLEX

## CA-LNU-013407

Sunday

**OPERATIONAL PERIOD**

**8/23/2020 0700**

**to**

**8/24/2020 0700**

**Briefing will be broadcasted on CDF TAC 27**

# INCIDENT OBJECTIVES (ICS 202)

| 1. Incident Name: | 2. Operational Period: | | | | |
|---|---|---|---|---|---|
| LNU LIGHTNING COMPLEX | | Date From: | 8/23/2020 | Date To: | 8/24/2020 |
| | | Time From: | 0700 | Time To: | 0700 |

**3. Objective(s):**

**Management Objectives**

- Provide for emergency personnel and public safety at all times.
- Ensure COVID-19 precautions and best practices are met at all times.
- Protect property, improvements, and infrastructure.
- Ensure coordinated, timely and accurate release of public information.
- Foster and maintain relationships with all cooperators and stakeholders.
- Protect economic, natural, cultural and heritage resources.
- Maintain fiscal accountability and keep costs commensurate with values at risk.

**Control Objectives:**

**Branch X - Keep the fire:**

- North of the Russian River
- South of Kelly Rd.
- East of Highway 1
- West of Dry Creek Rd.

**Branch XX, XXX, XL - Keep the fire:**

- North of Highway 12
- South of Highway 20
- East of Highway 29
- West of Highway 505 & 16

**General Situational Awareness:**

Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.

In the COVID-19 environment, high density populations or large groups are particulary at risk. To help protect yourself, your family and to ensure all employees return home safely, make sure to practice social distancing.

Enhanced hygiene (especially handwashing), PPE & monitoring practices help limit the infection rate of first responders.

**5. Site Safety Plan Required?** Yes ☐ No

**Approved Site Safety Plan(s) Located at:**

# Fire Weather Forecast

## SUNDAY AUG 23, 2020

| | | | |
|---|---|---|---|
| **FORECAST NO:** | **5** | **NAME OF FIRE:** | **LNU COMPLEX** |
| **PREDICTION FOR:** | **Sunday** | **UNIT:** | **LNU** |
| **SHIFT DATE:** | **August 23, 2020** | **Incident Meteorologist:** | **Tom Wright** |
| **ISSUED:** | **1900, Aug 22, 2020** | | |

***** RED FLAG WARNING FOR DRY LIGHTNING AND ERRATIC WINDS ON EXISTING FIRES *****

**DISCUSSION:** Moisture and instability from old hurricane Genevieve will move across central California today and set the stage for isolated to scattered thunderstorms including over the LNU Complex. Very dry air exists in the low levels, so any storms that occur are unlikely to produce any rain. Strong, erratic outflow winds are expected near any thunderstorms but may also occur from distant storms. Critical weather conditions will exist today, so pay close attention to changing weather and be ready to act on any weather updates that are issued.

---

**SUNDAY:** ***** RED FLAG WARNING FOR DRY LIGHTNING AND ERRATIC WINDS ON EXISTING FIRES *****

- **WEATHER:** Partly cloudy. Isolated thunderstorms. Little to no rain with any storms.
- **WIND (20 FT):** Valleys: Light and variable through 1100 then becoming south 5-10 MPH with gusts to 15 MPH. Gusts to 25 MPH possible in the valleys of divs KK, GG, CC. Ridges and gaps: southwest 4-8 MPH through 1100 then becoming west-southwest 8-13 MPH with gusts to 18 MPH. **Erratic downdraft wind gusts to 40 MPH possible near any thunderstorms.**
- **MAX TEMPERATURES:** bottom: 90-95, top: 85-90.
- **MIN RH:** 15-20% all areas.

**Branch X:** Winds: West-southwest 5-10 MPH with gusts to 15 MPH. Min RH: 30-40%. Highs 80-85.

---

**SUNDAY NIGHT:** ***** RED FLAG WARNING FOR DRY LIGHTNING AND ERRATIC WINDS ON EXISTING FIRES *****

- **WEATHER:** Mostly cloudy. Isolated thunderstorms.
- **WIND (20 FT):** Valleys: becoming light and variable. Ridges: southwest 4-8 MPH. **Erratic downdraft wind gusts to 40 MPH possible near any thunderstorms.**
- **MIN TEMPERATURES:** 60-65 bottom, 65-75 top.
- **MAX RH:** Valleys: 40-60%, ridges: 25-40%.

**Branch X:** Winds: Southwest 5-10 MPH. Max RH: 40-60%. Lows 55-60.

---

**MONDAY:** ***** RED FLAG WARNING FOR DRY LIGHTNING AND ERRATIC WINDS ON EXISTING FIRES *****

- **WEATHER:** Partly cloudy. Isolated thunderstorms. Little to no rain with any storms.
- **WIND (20 FT):** Valleys: Light and variable through 1100 then becoming south 5-10 MPH with gusts to 15 MPH. Gusts to 25 MPH possible in the valleys of divs KK, GG, CC. Ridges and gaps: southwest 4-8 MPH through 1100 then becoming west-southwest 8-13 MPH with gusts to 18 MPH. **Erratic downdraft wind gusts to 40 MPH possible near any thunderstorms.**
- **MAX TEMPERATURES:** bottom: 90-95, top: 85-90.
- **MIN RH:** 20-25% all areas.

**Branch X:** Winds: West-southwest 5-10 MPH with gusts to 15 MPH. Min RH: 25-35%. Highs 80-85.

---

**LONG TERM TRENDS**

**Tuesday:** Slight chance of thunderstorms early. **Wednesday & Thursday:** Hotter and drier.

Weather Obs Sites

# FIRE BEHAVIOR FORECAST

| | |
|---|---|
| **FORECAST NUMBER: 5** | **TYPE OF FIRE: WILDLAND FIRE** |
| **FIRE NAME: LNU Lightning Complex (CALNU013407)** | **OPERATIONAL PERIOD: 08/23/20 – 08/24/20 24hr** |
| **DATE ISSUED: 08/22/20** | **TIME ISSUED: 2200hrs** |
| **UNIT: LNU** | **SIGNED:** Robert Clark<br>**Typed/printed: R. Clark, T. Velin, H. Scanlon** |

## INPUTS

**WEATHER SUMMARY: ***See official forecast*****

*****RED FLAG WARNING FOR DRY LIGHTNING AND ERRATIC WINDS*****

**Sky/ Weather....** Partly cloudy. Isolated thunderstorms. Little to no rain with any storms

**Max Temperatures...**bottom 90-95, top 85-90 **Min Humidity...** 15-20% all areas

## OUTPUTS

**FIRE BEHAVIOR**

**GENERAL**: Fuels are at holding at the 90th percentile for ERC and are available to burn, continuing through the next 7 days. Fuels are highly receptive to ignition from embers, or new ignitions. Expect ignitions outside control lines to be highly resistive to control. Larger diameter fuels will continue to consume causing a threat when near control lines. Roll out and tree torching is probable, and will contribute to the spotting potential. Any outflow winds will follow terrain features and funnel up or down drainages and increase fire activity, even from a distance.

**Rates of Spread**- up to 1.7 mi/hr **Flame Lengths** up to 25 ft

*Greater rates of spread and flame lengths are possible when wind and slope are in alignment.

**Probability of Ignition**: up to 90% **Spotting Distance:** Spotting up to ½ mile.

**SPECIFIC:**

**West Zone** Meyers – This fire is burning in heavy timber broken up by grassy meadows. Fire behavior is minimal with creeping and smoldering. Interior islands will continue to consume.

Walbridge – Expect the fire to be active on the eastern flank again today. Heavy fuels and difficult terrain will challenge control efforts. In the Northeast, the fire is backing and flanking into Pena creek. The Pena creek drainage is in alignment with today's Southwest wind. The fire is also backing and flanking into Dorman Canyon. In the South, the fire is backing into Sweetwater creek, under clear air this portion of the fire became active yesterday around 1600 hours. Thunderstorm activity later today brings the chance of strong outflow winds. Wind direction will be determined by the location of the thunderstorm cell. Monitor active fire in drainages as these will be likeliest places to be affected by outflow winds.

**East Zone-**

**Branch XX**- With the continued Southwesterly wind, expect for movement from any uncontrolled perimeter to continue burn in the brush and oak woodland fuels to the North-northeast. Northwest movement is possible, where local terrain can funnel the wind. Fire spread South towards Three Peaks and Angwin is still possible in the timber and understory fuels on the North slopes if the fire crosses the control lines.

**Branch XXX**- Pockets of heat near the perimeter can carry into unburned fuels. Potential for fire movement to the North along Hwy 16, funneled by terrain winds. Grass and shrub fuels have burned recently, with some dead shrub skeletons available to burn.

**Branch XL-** Interior fuels will continue to consume. Roll out into unburned fuels can cause uphill runs with the terrain or wind. Some fire spread is expected in areas with uncontrolled line.

**AIR OPERATIONS:** Drift smoke may limit aircraft operations.

## SAFETY

With forecasted possibility of dry lightning over or near the complex, outflow winds can adversely affect the existing fires. Be alert for sudden wind shifts and expect fire behavior to increase.

Identify your escape routes and safety zones, have a plan in place, and ensure all personnel are briefed on it.

# LIGHTNING COMPLEX SAFETY MESSAGE

**L**ookouts, **C**ommunication, **E**scape routes, **S**afety zones

| **INCIDENT**: Lightning Complex CA-LNU-013407 | DATE: August 23, 2020 TIME: 0700-0700 |
|---|---|

**Major Hazards / Risks: Lightning, Extreme fire behavior, Limited Resources**

**Extreme Fire Behavior**: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior. Watch for spot fires outside the control lines and embers cast into structures.

**Lightning/Thunderstorms**: Thunderstorms bring sudden wind shifts. Lightning can start new fires. Take precautions and shelter when you hear thunder or see lightning. Find a low spot away from tall trees and don't group together. Follow *Thunderstorm Safety* guidelines in IRPG.

**Driving:** Slow Down! Drive defensively. Narrow winding roads. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

**Personnel:** Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

**Fatigue:** Limited resources and hot, dry, windy weather for the next several days. Be alert for signs of fatigue and take breaks as necessary. Be alert for signs of fatigue in yourself and others.

**Hazard trees:** Survey the areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow Hazard Tree Safety in your IRPG.

**Steep slopes/rolling material**: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

**Downed powerlines:** Follow Powerline Safety guidelines in the IRPG, watch out for burned out power poles.

## Maintain Situational Awareness

| **Covid-19 Precautions:** | **New Incidents:** |
|---|---|
| • Keep your distance. Wear a mask when less than 6' from other people.<br>• No group gatherings without masks<br>• Wash your hands<br>• Don't show up to work sick<br>• Do daily health evaluations on your personnel. | • Remain flexible and mobile.<br>• Identify available resources ahead of time<br>• Utilize **PACE** planning. Have a **primary**, **alternative**, **contingent**, and **emergency** plans.<br>• **Establish LCES** in the beginning of a new start. |

Incident Safety Officer: **Chad Thompson** Incident Commander: **Sean Kavanaugh**

# Safety Alert

## Thunderstorm Safety

Approaching thunderstorms may be noted by a sudden reverse in wind direction, a noticeable rise in wind speed, and a sharp drop in temperature. Rain, hail, and lightning occur only in the mature stage of a thunderstorm.

## Situational Awareness

Observe the 30/30 rule: If you see lightning and hear the thunderclaps following in less than 30 seconds take the storm precautions identified below. Do not resume work in exposed areas until 30 minutes after storm activity has passed.

## Hazard Control

- Take shelter in a vehicle or building if possible.
- If outdoors, find a low spot away from tall trees, wire fences, utility lines and other elevated conductive objects. Make sure the place you pick is not subject to flooding.
- If in the woods, move to an area with shorter trees.
- If only isolated trees are nearby, keep your distance twice the tree height.
- If in open county, crouch low with feet together, minimizing contact with the ground. You can use a pack to sit on, but never lay on the ground.
- If you feel your skin tingle or your hair stand on end, immediately crouch low to the ground. Make yourself the smallest possible target and minimize your contact with the ground.
- Don't group together.
- Don't stay on ridge tops, wide open areas, or near ledges or rock outcroppings.
- Don't operate landlines telephones, machinery, or electric motors.
- Don't handle flammable materials in open containers or metal hand tools.

# LIGHTNING COMPLEX INCIDENT RISK ANALYSIS (ICS 215a)

| DIV | HAZARDOUS ACTIONS/CONDITIONS | MITIGATIONS / WARNINGS / REMEDIES |
|---|---|---|
| ALL | **EXTREME FIRE BEHAVIOR** | Review Wildland Urban Interface Firefighting in the IRPG. Monitor current weather conditions and forecasts. Make sure all personnel receive a briefing. Work within your capabilities when limited resources are available. Maintain escape routes and safety zones. Follow 10 Fire Orders, mitigate 18 Situations, and use Structure Defense Tactical Actions when protecting structures. |
| ALL | **LIGHTNING / THUNDERSTORMS** | Thunderstorms bring sudden reverse in wind direction and increase in wind speed. Take precautions when you hear thunder, not when the storm arrives. Take shelter in vehicle or building if possible. Find a low spot away from tall trees and don't group together. Don't stay on ridge tops. Follow *Thunderstorm Safety* guidelines in IRPG. Anticipate new fires with lightning. |
| ALL | **BACKFIRING and BURNOUT OPERATIONS** | Before beginning a backfiring or burnout operation, ensure that:<br>Lookouts are posted, communications are established with both firing and holding teams, escape routes and safety zones are established and not compromised by the firing operations. Ensure approval and relay to all adjoining forces. Follow the Firing Operations Checklist. Wear full PPE. |
| ALL | **STEEP TERRAIN / ROLLING DEBRIS** | Watch your footing while hiking in steep terrain. Be careful of loose rolling debris Maintain Situational Awareness and separation. |
| ALL | **DRIVING** | Drive defensively! Narrow winding roads are hazardous. Slow Down. Drive with headlights on and seatbelts on. Be alert for heavy trucks and high-speed opposing traffic crossing into your lane. Use warning devices when operating near traffic. |
| ALL | **FATIGUE / HEAT / DEHYDRATION** | During periods of hot/dry weather with limited resources be alert for signs of fatigue and take breaks as necessary. Drink water before, during and after shifts, up to 1.5 gal. per shift. Be alert for signs of heat stress in yourself and others; use the buddy system. Eat small meals often and when possible. |
| ALL | **COVID 19** | Maintain 6' distance whenever possible. Wear masks when less than 6' away from people, frequent hand washing/sanitizing, disinfect common surfaces, follow Napa County Public Health Guidelines. Conduct daily health evaluation of all personnel. Monitor for symptoms, follow reporting procedure. |
| ALL | **LIMITED RESOURCES** | Always work within the capabilities of yourself or your crew. Apply a risk management process to identify hazards, implement a plan, and evaluate progress frequently. Do not implement a plan that relies on other resources showing up. Anticipate changes, stay flexible, and be ready for the unexpected. |
| ALL | **DOZER SAFETY** | Watch for rolling material. Monitor safe working distances. Avoid working below a Dozer. Utilize communication with the operator (radio or hand signals)<br>Watch for signs indicating buried high-pressure gas lines, stay out of the dust. |
| ALL | **POWER LINES** | Follow *Powerline Safety* guidelines in the IRPG. Communicate power line hazards to immediate supervisor. Flag area around downed power lines and deny access. Treat all downed power lines as energized. |
| ALL | **AIRCRAFT OPERATIONS** | Monitor air-to-ground frequency, they are your eyes in the sky.<br>Use air-to-ground frequency to communicate with aircraft.<br>Use clear, concise statements when directing aircraft. |
| ALL | **HAZARD TREES** | Identify and isolate the area to provide for safety of others. Flag and make the proper notifications. Evaluate all trees prior to working under or near them. Don't fall any tree outside of your qualification. |
| ALL | **LINE CONSTRUCTION** | Conduct thorough briefing for all personnel. Ensure LCES are in place prior to engagement. Use Downhill Line Checklist. (IRPG). |

# AIR OPERATIONS SUMMARY ICS-220

| Time Prepared | Date Prepared | Prepared By |
|---|---|---|
| 1900 | Friday August 22, 2020 | M.Deacon |

| Incident Name / Incident Number | Sunrise | Startup | Cutoff | Sunset | Shutdown | Operational Period - Date | Operational Period - Time |
|---|---|---|---|---|---|---|---|
| LNU Lightning Complex/CALNU 13407 | 6:27 | 6:57 | *19:28* | *19:58* | 20:28 | Saturday August 23, 2020 | 0800-0800 |

**General Remarks, Safety Notes, Hazards, Air Operations Special Equipment, etc.**
TRACK ALL DIPSITE LOCATIONS / NUMBER OF DIPS / GALLONS TAKEN.
TRACK ALL DROP LOCATIONS / NUMBER OF DROPS / GALLONS DROPPED
All GPS DATA TO BE COLLECTED IN DEGREES, MINUTES, DECIMAL MINUTES FORMAT.
*AVOID Aerial Application of Retardant / Foam / Agent within 300' of Waterways, Bodies of Water, etc.*
*If Retardant / Foam / Agent is Dropped Within These Areas Immediately Notify the AOBD and Provide the Following Information: Lat / Long, Estimated Number of Gallons and a Map Detailing The Area.*

**Helibase Information**
Name: 7M
Latitude: 38 43.719
Longitude: 122 33.642

Name: Healdsburg
Latitude: 39 39.17
Longitude: 122 53.91
(use page 2 if needed)

**6. Special Medical Emergency Procedures**

**Line Emergency**
Crew Supervisor will contact Division Supervisor with patient complaint/condition and location.
- Division Group Supervisor Contacts:
  1. Closest EMS resource
  2. Communications Unit
- Communications Unit Contacts:
  1. Ground or Air ambulance as requested.
  2. Operations
  3. Safety
  4. Medical Unit
- Division Supervisor or designee will serve as point of contact and run medical emergency on assigned channel.
  1. A pre-assigned tactical frequency (i.e. CALCORD) should be used for IWI and only for duration of the emergency.
- Communications Unit will clear the Command channel for emergency traffic as needed for duration of the need.

**Camp Emergency**
Contact Medical Unit with patient complaint/condition and location. Medical staff will respond to stabilize the patient.
- Medical Unit contacts
  1. Communications
  2. Safety
  3. Logistics
  4. Operations

**Archaeological and Historic Properties:**
**General Fire-line Guidance.**

**Do not compromise safety for the protection and preservation of archaeological and historic properties. When possible and prudent:**

1. Be on the lookout for prehistoric and historic archaeological sites. These sites typically occur adjacent to streams and springs, confluences are often especially sensitive. However, sites can occur in other areas too. The most common indicators of prehistoric sites in this area (North Coast Ranges) are scatters of shiny black obsidian flakes from tool making activities and dark midden soils. Historic-era sites include homesteads that contain foundations, rock chimneys, and stone / brick-lined wells. Historic-era mining sites are possible as well.

2. Note, that not much of the area has ever been surveyed for archaeological resources and many sites out there have yet to be discovered.

3. If you observe archaeological resources, flagged or unflagged, attempt to avoid with ground disturbing activities altogether.

4. If avoidance is not possible, minimize ground disturbance. Use a hand crew rather than a dozer to remove fuels from control lines that must cross site areas if possible.

5. Leave all artifacts in place as some may have been intentionally placed for religious or ceremonial reasons.

6. Note locations of discovered resources on a map, better yet, take site coordinates with a GPS. Leave information for the archaeologist so that the sites can be relocated and protected during Fire Suppression Repair. Flag the site in red if possible.

7. If you encounter a burial or other human remains, cease work in that area and contact the archaeologist immediately.

Your help preserving California's non-renewable cultural resources is appreciated. It is our responsibility as federal and state employees to help in the protection of our heritage – preserving these places, and artifacts for scientific, cultural, educational, spiritual, and religious uses.

# LNU LIGHTNING COMPLEX PUBLIC INFORMATION

**Incident Information Line: 707-967-4207**

**Email pictures to: LNULightningComplex2020@gmail.com**

## MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

## CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

## PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

## LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

## MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.

# Peer Support Team Message

Resource Box

## LNU LIGHTNING COMPLEX
## INCIDENT PEER SUPPORT

Thank you for taking the time to have a look at this message.

Please pay attention to yourselves and others around you. Positive interactions go a long way. Many of us are here, away from our families and kindness towards each other is key.

Things to be aware of:

- Negative coping mechanisms
- Lack of sleep
- Irritability
- Fatigue
- Social withdrawal
- Depression
- Increased anxiety

You may not be experiencing these symptoms now. However, you may find yourself experiencing them when you return to your home or Unit.

If you find yourself in this situation and need to talk to someone, please contact Employee Support Services.

Warren Parrish: 916-823-6641
Chris Lamonto: 916-247-6974
Amy Head: 916-956-3277
ESS Helpline: 916-445-4337

We are here for all personnel at this incident.
